

# MAKING TAX DIGITAL (MTD)

Are you a VAT registered business with a turnover more than the VAT threshold of £85,000?

**Yes**

If you use spreadsheets to keep business records you'll need MTD-compatible software. Bridging Software may be required to make spreadsheets MTD-compatible.

If you already use software, speak to your provider to know when it will be MTD-compatible and what you have to do.

**No**

If it is not reasonably practicable for you to use digital tools to submit returns for reasons such as remoteness of location, then contact the VAT Helpline.

You can opt to join MTD for Business but you are not required to do so.
