LEADERSHIP DEVELOPMENT SERIES 2021

New for 2021

Following the huge success of the Leadership Development Series in 2020, where over 60 business professionals were transformed into exceptional leaders, the Chamber is pleased to announce a new programme for 2021, in partnership with 3WH. With a limited number of places available and in high demand, we are urging businesses to express their interest now in order to secure a place on this sought-after series.

Re-designed to reflect the challenges of the new Covid-working world, this six-part personal leadership programme will focus on the difference between being a manager and a leader. Learn more about what it takes to be an exceptional leader through times of change and uncertainty, build high-performing teams and lead change with confidence and conviction.

Presented as interactive workshops, these sessions are designed to develop the future leaders of business, help unlock hidden potential in future CEOs and invest in the future of the people at the heart of businesses.

One of the most useful aspects of the Leadership Development Series was the ability to collaborate and hear from other delegates in small break-out groups. It provided such a useful forum to share common difficulties and talk through solutions.

Hannah Craven, Head of Marketing, Smartbox Assistive Technology Ltd

Melton specialises in Infection Prevention and Control, so when the pandemic struck all eyes were on me as the company went into overdrive. The Leadership Development Series was pivotal in helping me achieve a sense of balance and purpose, I don't believe I would have achieved that level of strength without the knowledge I gained from the training.
