charity GOLD Membership

What is it?

Our Charity Gold Membership has been specifically designed to support charities to reach their strategic goals and raise their profile across the region.

This Membership will support your charity in its quest for increased exposure, professional employee development and give you access to a network of over 1400 businesses.

Charities receive a 20% discount on the full price of Gold Membership so the cost starts from as little as £15.83+vat per month.

Is Membership right for my charity?

From our many years of experience, we have developed support for almost every type and size of charity there is and through this experience we have developed a range of support services we know will make a difference to you.

Our Membership aims to grow as you do, from the moment you launch to when you first hire staff and beyond. We have a Member benefit for whatever stage your business is at.

Chamber Membership is so much more than access to services. It's access to new connections which could become customers, suppliers, partners or perhaps even friends.

Charity Members tell us they benefit from:
