

Chamber Cyber Essentials

The British Chambers of Commerce has partnered with IASME, the National Cyber Security Centre's Cyber Essentials partner, to provide a Chamber Cyber Essentials package to Chamber members.

What is Cyber Essentials?

Cyber Essentials is an effective, government backed scheme that will help you to protect your organisation, whatever its size, against a whole range of the most common cyber attacks. Cyber Essentials represents a minimum baseline standard for cyber security in the UK.

Benefits for Chamber members:

-  **A £10 discount on the certification combined with bespoke training offered exclusively for members.**
-  **Access to the self-assessment questions to help members prepare for certification.**
-  **Free cyber security guidance and access to the online 'Cyber Essentials Readiness Tool.'**
-  **Inclusive cyber liability insurance (terms and conditions apply).***
-  **Signposting to valuable NCSC guidance alongside webinars and seminars explaining the scheme.**

*Terms and Conditions: Cyber Essentials certification includes automatic cyber liability insurance for any UK organisation who certifies their whole organisation and have less than £20m annual turnover.
