

Heartstart Malvern

The survival rate for a cardiac arrest in Malvern is **less than 10%**. It could be as **high as 70%** if more people learnt how to do Cardio-Pulmonary Resuscitation (CPR) and to use a defibrillator.

Heartstart Malvern Training

Heartstart Malvern offers **FREE** CPR and defibrillator training. In less than **90 minutes** we can teach you some simple skills that could **save a life**.
